A is for
Accident

Wildfire Accident!
Everyone go to
your homes!

Aa

A is for accident
Many wildfires can
cause accidents because
they can destroy
anything in it's path.
Accidents can hurt
Nature, Animals and people.
It can destroy habitats
such as homes.

B is for
Burning

Burning
Trees and
Nature
can cause
death to
these
features.

B

B is for
Burning

Wildfires can
burn RED hot
for hours.

Wildfires are danger
because they burn!
Trees can burn and fall
down but sometimes
it's good because they
expand growth.

HOT

COLD

C is for Climate

C is for climate. Wildfires begin depending on climate. Whether it's hot or cold. When it is cold wildfires are unlikely to happen. When it gets hotter there could be droughts. Droughts can lead to accidents, accidents lead to burning, and burning can lead to wildfires.

D is for damage.
Wildfires can cause
a lot of damage.
They can burn just
about anything in
their way. They
can damage cities
and towns. Wild
fires can cause
great destruction
and hurt many
people. Yes they
can damage a lot
of things.

E is for
escape

Escaping
a wildfire
can be
dangerous.
Be careful
were you step.

E

E is for escape.

If a wildfire
came to your home
you would try to escape
It's not that easy so
do it before it gets
to you. You can get
a **smokedetector** to
make sure you get
an **early warning**.

F is for Follow

FF

F is for follow.
Wind can start a wildfire
If you follow the wind
you might find that
a wildfire is following
you. Runaway!

G is for gust

G

G is for gust.
A gust of wind
can make a fire
a lot stronger. Wind
has more oxygen than
air and it fuels fire.
Gusts of wind can
move together to
form a substance
really hot such
as a wildfire.

H

is for help.

If you have your phone you should call for help. Try calling 911, they can help you stay safe.

Also it is good to help someone else. Give them a helping hand or some good words. It'll make them feel good.

I

I is for insane

giant

orange

wavy

Yellow

red

I

I is for insane

Wildfires are insane fires that travel far from where they are born. Wildfires can be big and small. The insane part gets into their color. Wildfire's can grow very big depending on where they go!

J is for smoke
jumpers

Smoke jumpers
are people whom
suck up smoke
and stop fire.
Like fire fighters
but meant for smd

K K

K is for Kill.
Wildfires can kill
plants, animals, and
even humans.
They can burn
animals' homes so
they will have to
leave their habitats.
But then again
wildfires are good
because they
can grow new
life.

L

L is for listen
When your teacher
teaches you about
wildfires you should
listen, because

Sometimes you just
don't know what to
expect. You should
probably listen to
your teachers too.

Parents -> no matter
which job they have
are really smart.

Those are some
people you should
listen to because
they are people that
can keep you safe.

It is
important
to listen
to what
someone
says to you.

Mm

M is for
mountains

Did you know
that wildfires
travel faster
on mountains
then on land.

I guess they
need to share
their heat with
the world.
How weird is
that?

Nh

N is for natural

Disasters.

Wildfires are natural disasters. So are hurricanes, tornadoes, floods and more. They are all very dangerous and you don't want to be in them. Droughts and flooding are the worst.

Wildfire

Tornado

Hurricane

Earthquake

O is for oxygen

Everyone knows we need oxygen to breathe but during a wild fire that's going to be hard to find. Wild fires can suck up so much oxygen that there's no more for you. That's a bad thing. So try to stay away from wild fires. Wild fires want to take oxygen because that makes them stronger!

P is for prevent

PP

P is for prevent.
To prevent a wildfire
You can make sure
to put out your
campfire when
you go camping.
You can put out
a fire by dumping
water or sand on it.
Also, before you start
a fire you should
make sure there is
nothing around it that
can be burned.

Definitely
pour
water
on a
fire after
you done
using
it.

Q is for Quick

You should try to **evacuate** as quickly as possible if you are in a building and wildfire is chasing you. Being **quick** is the most complicated thing in getting out. Be careful!

Emergency STAIRS

Emergency Stairs are very useful and helpful when you are in a building and you are trying to go.

Emergency STAIRS

Rf

R is for Run

You might
want to
run if you
get caught
somewhere by
someone or
something.

Same with
wildfires, if you
would want to
do anything if
would be to run.

S is for smoke.

If you are in a fire you should try and get a paper towel or other thing to cover your nose and mouth. Next get down low and crawl to safety. Never use the ELEVATOR. Getting smoke in your lungs can make it hard to breath.

T

T

is for

temperature.

Forest fires receive

heat by radiation

from the sun. That

will affect how

fast the wildfire

moves. Warmer fuels

ignite and burn

faster. The higher

the temperature

the faster the

wildfire is.

NOT

YES

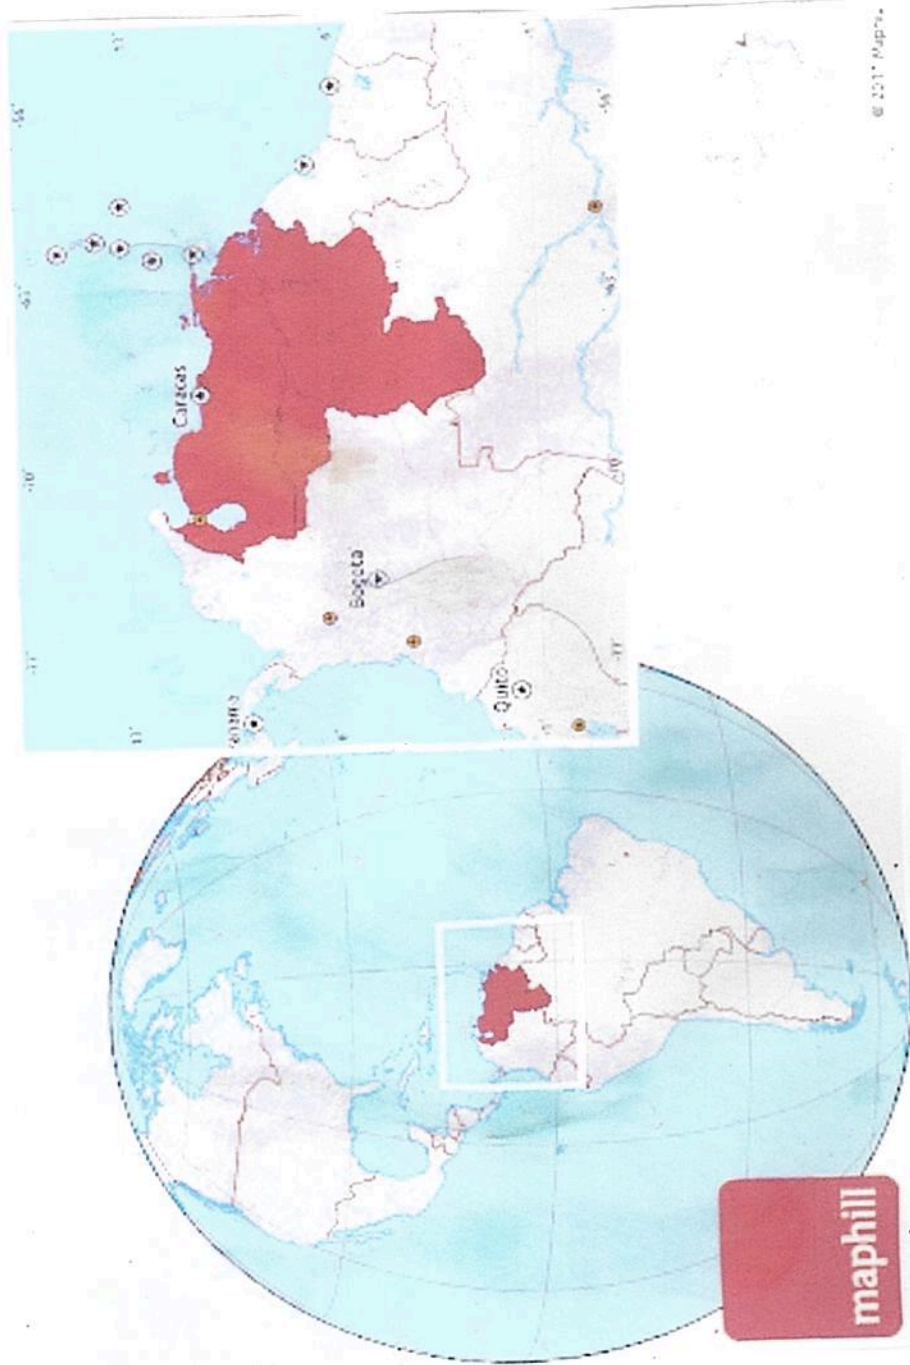

is for
Uncontrollable.
Once wildfires start
they are really
hard to stop.
It's not like
one of those
parties you go
to where someone
is in the mask.
This is no
mask. Wildfires
are uncontrollable!

V is for

Venezuela

Venezuela can be covered in fire! In March, 27,2019 hundreds of wildfires erupted out of nowhere!

W

W is for wildfire
Wildfires are very
dangerous. The
fastest wildfire
was in Northern
California on
January 21, 2018.
It was 6 miles
per hour. Wildfires
can sometimes start
from campfires.
If you forget to put out
your fire when you
go camping it could
get blown by the
wind and spread.

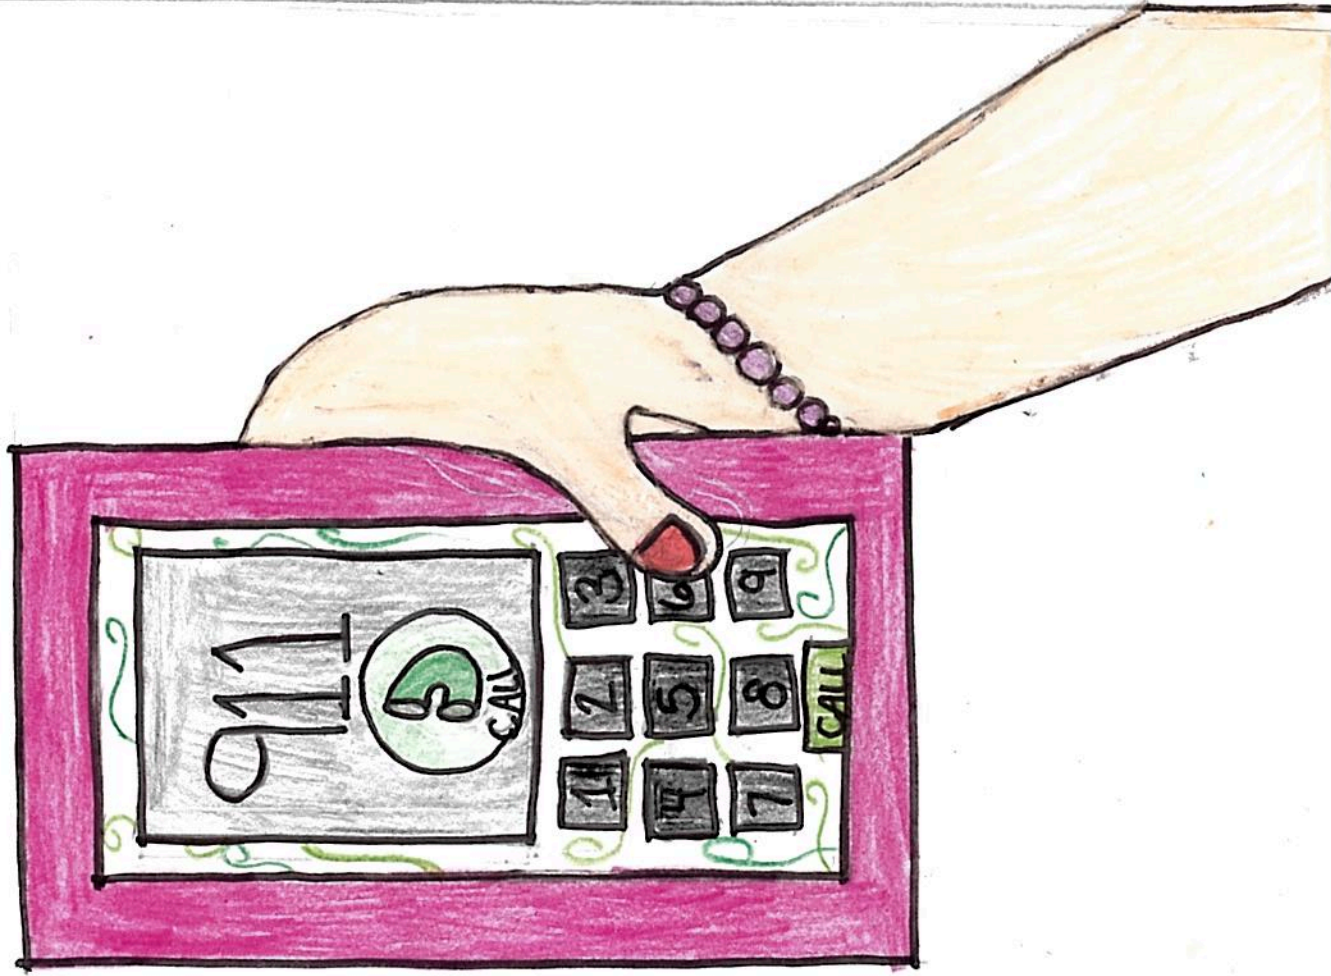

~~XXXX~~
X is for extreme
Wildfires are
very extreme
natural disasters.
They move extremely
fast. Also the
smoke can get
in your lungs which
will make it hard
to breathe. Wildfire
can also be
extremely big.

Y is for you

Y is for you.
If you know
someone is
in danger,
don't hesitate
to call someone.
Don't be scared
it's okay to
help!
Call 911! They
can help you!

Z Z

Z is for Zambia

Zambia has
been hit so many
times by wildfire
Zambia is in Africa

Take a look at this
Picture. Look at
that! How horrible
is it? Horrible
if you ask me.

I would not
want to be
there.
